EDUCATION

University of California, Berkeley — PhD, **Computer Science** — August 2026 - present
Advisors: Irene Chen, Emma Pierson

The University of Texas at Austin — Bachelor of Science, **Computer Science Honors** (**Turing Scholars**) — May 2024
Bachelor of Science and Arts, **Mathematics Honors** (**Polymathic Scholars**)
Advisors: Maria De-Arteaga, Kevin Tian, Leqi Liu

PREPRINTS

[1] J. Batzner, S. Nelaturu, A. Kornilova, J. Crall, T. Cerruti, Y. Long, Y. Mai, S. Ahuja, A. Yehudai, M. Suppa, J. P. Lalor, O. Olowe, J. Ganhotra, B. H. Hu, E. Habba, A. M. Bean, C. Liu, S. Land, S. Dillmann, A. Karikaparthi, E. Bandel, S. Imai, J. Edgell, W. M. Kennedy, J. Chim, P. Meusling, A. Kaeberlein, V. R. K. Chudi, M. Patwardhan, M. Ku, A. Meek, L. Knauer, B. Wingenroth, S. Yadav, U. Gohar, F. Friedrich, M. Lin, J. Mickel, A. Cohan, S. Biderman, I. Solaiman, Z. Talat, A. Reuel, M. Akhtar, G. Kasneci, A. Ghosh, & L. Choshen. "Every Eval Ever: A Unifying Schema and Community Repository for AI Evaluation Results." *Preprint* 2026 [pdf]

CONFERENCE PUBLICATIONS & BOOK CHAPTERS

RESEARCH EXPERIENCE

EleutherAI - *Researcher* May 2025 - present
- Advised by Stella Biderman

Evaluating Evaluations Coalition - *Strategy and Community Engagement Chair; Research Lead*; April 2025 - present
- Led subgroups of 5-10 researchers for the Benchmark Saturation, Eval Cards, and Evaluation Science research streams.
- Working Group Lead for the Next Eval Eval Workshop and Research Community Engagement streams.
- Organized the Evaluating Evaluations 2025 workshop with UCSD and UK AISI in San Diego, the Evaluating Evaluations 2026 workshop at the Association for Computational Linguistics (ACL), and the 2026 Microconference on Embedding Evaluators in Practice: Making Embedded AI Evaluation Independent, Rigorous, and Consequential.

INDUSTRY EXPERIENCE

Datadog - *Software Engineer*; New York, NY February 2025 - September 2026
- Launched a sandboxed JavaScript execution service for custom post-processing of LLM-as-a-Judge outputs, adopted by 20+ customers on a platform serving 1,000+.
- Shipped 5 research-backed LLM-as-a-Judge evaluators (toxicity, prompt injection, tool correctness, task and goal completion) at span, trace, and session levels, achieving 98% precision on labeled datasets.
- Built configurable LLM safety evaluations end to end (React, TypeScript, backend) with tag- and span-based sampling, cutting customer evaluation spend by 90%.
- Integrated DeepEval and Pydantic into the experiments SDK, converted built-in evaluations to configurable templates, and added AWS Bedrock region support, expanding the addressable customer base.
- Added configuration deletion and audit metadata to the evaluation API, giving customers lifecycle control and change traceability.
- Redesigned evaluation dashboards to surface cost and token usage, giving visibility into 1M+ tokens of monthly evaluation spend.
- Mentored 2 interns on distributed tracing and prompt injection evaluation, resulting in 4 features shipped to production.

Datadog - *Software Engineering Intern*; New York, NY May 2024 - August 2024
- Developed outlier detection evaluation for real-time identification of anomalous LLM responses for LLM Observability product

Cruise - *Software Engineering Intern*; San Francisco, CA May 2023 - August 2023
- Increased autonomous vehicle (AV) trip controls by 100% enabling 100+ agents to remotely cancel and end AV trips for 10,000+ ridehail users in 400+ AVs by developing and deploying cancel trip and end ride early functionality using React and Node.js
- Coordinated development across engineering, product, and design and tested using unit and E2E testing with the react-testing library and in prod with operations using driverless AVs to perform user acceptance testing and product functional testing

Indeed - *Software Developer Intern*; Austin, TX May 2022 - August 2022
- Engineered Right to Work onboarding process accessed by 180,000+ users yearly using React, Django, Typescript, and Python, which records and saves user information and personal identification to improve user security and maintain sole data ownership

Plexon Inc - *Software Development Intern*; Dallas, TX June 2019 - August 2019, June 2020 - August 2020
- Devised proprietary API in Python to read neural spike data and devised example programs to demonstrate API functions
- Designed and developed neural data visualization applications using Python showcasing the integration of the PyOPXClient API

TALKS, PRESENTATIONS, AND PANELS

Developing Agent Evaluations that Matter — Daytona AI Builders w/ Oracle & Datadog 2026
College of Natural Science Advisory Council AI Ethics/Safety Panel — **UT Austin** 2024
Evaluating the Social Impact of Generative AI Systems in Systems and Society — **Datadog** 2024
Evaluating the Social Impact of Generative AI Systems in Systems and Society — **London Data Week** 2024
Evaluating the Social Impact of Generative AI Systems in Systems and Society — **Princeton University** 2024
Evaluating the Social Impact of Generative AI Systems in Systems and Society — **Stanford University** 2024

The Importance of Multi-Dimensional Intersectionality in Algorithmic Fairness and AI Model Development **Cruise** 2023

TEACHING EXPERIENCE

University of Texas at Austin - *Natural Language Processing Teaching Assistant* August 2023 - December 2023

● Held weekly office hours, graded assignments, and assisted students in learning about word embeddings, FFNNs, transformers, LLMs, and building NLP projects (sentiment analysis NN, feed-forward neural network (FFNN), language model, final project)

University of Texas at Austin - *Originality in the Arts and Sciences Teaching Assistant* August 2021 - December 2023

● Mentored 3 cohorts of 6 undergraduate honors students in writing a grant proposal and developing a scientific experiment

● Clarified and explained how to read research papers, ask research questions, and develop methods for computer science research

ACADEMIC SERVICE

● **Workshop Organizer:** Microconference on Embedding Evaluators in Practice: Making Embedded AI Evaluation Independent, Rigorous, and Consequential (2026), Workshop at ACL 2026 (Evaluating Evaluations: Examining Best Practices for Utilizing and Developing Generative Model Evaluations), Tutorial at FAccT 2026 (Every Eval Ever, But For Everyone? Open Challenges in Building Community-Governed AI Evaluation Infrastructure), CRAFT at FAccT 2026 (Common Ground: Closing the Gap Between Algorithmic Collective Action Research and LGBTQIA2S+ Community Needs), Satellite NeurIPS 2025 workshop in partnership with UK AISI and UCSD (Evaluating AI in Practice: Bridging Statistical Rigor, Sociotechnical Insights, and Ethical Boundaries), Workshop at NeurIPS 2024 (Evaluating Evaluations: Examining Best Practices for Measuring Broader Impacts of Generative AI)

● **Volunteer Chair** for FAccT 2027, FAccT 2026

● **Area Chair**: IAESI 2026, Eval Eval (ACL Workshop 2026), Eval Eval (NeurIPS Workshop 2024)

● **Reviewer**: FAccT 2027, NeurIPS 2026, FAccT 2026, NeurIPS 2025 (Ethics Reviewer, Position Paper), FAccT 2025, ACA (NeurIPS Workshop 2025), TrustNLP (NACCL Workshop 2025), Eval Eval (NeurIPS Workshop 2024), Redteaming Gen AI (NeurIPS Workshop 2024)

● **Student volunteer**: FAccT 2024 (in-person), FAccT 2023 (online)

HONORS & AWARDS

● **NSF CSGrad4US Graduate Fellowship ($159,000 over 3 years)** Fall 2025

● Deans Honored Graduate (highest honor awarded to top ≤1% of graduating seniors) Spring 2024

● College of Natural Sciences Research Distinction Award (awarded to top ≤5% graduating seniors) Spring 2024

● Jean Holloway Teaching Award Selection Committee Fall 2023

● Natural Sciences 21st Century Endowed Presidential Scholarship Fall 2023 - Spring 2024

● Natural Sciences Council Endowed Service Scholarship Fall 2022 - Spring 2023

● Bob Williams Endowment for Excellence in Undergraduate Mathematics Fall 2022 - Spring 2023

● Nettle Bush PWS Scholarship Fall 2021 - Spring 2022

● University Honors (5 Semesters) Fall 2020 - Spring 2021, Spring - Fall 2022, Spring 2024

● Chuchu Ma Memorial Endowed Presidential Scholarship in Computer Science Fall 2020 - Spring 2021

● College of Natural Sciences Merit Scholarship Fall 2020 - Spring 2021

TECHNICAL SKILLS

Proficient In: Python, PyTorch, Go, Typescript, transformers, Pandas, SKLearn, Javascript, Java, C/C++, and React/React Native, Node.js **Familiar With**: R, SQL, Django, Coq, YAML, C#
